

Water Issue Presentations

For November 26, 2021

Choose at least three countries or regions with water issues and order them (e.g., #1, #2, and #3).

Choose your group members (or you may work alone if you would like to).

Only one group per country or region.

Inform me of your choice. → ~~We want~~ → May we have ..., please?

Context of your presentation:

1. The background of your country/region
2. Current efforts to address the water situation; note that the 'efforts' can be technological, political, social, commercial, etc.

Please be prepared for your PowerPoint presentation as well as for questions.

Some possible ideas:

1. Israel (as we saw in the videos today)
2. Mexico
3. The southwestern part of the United States
4. Any of the countries on or near the Arabian peninsula
5. Chile
6. South Africa
7. the River Jordan
8. the Colorado River Basin
9. the Mekong River / Mekong River Basin
10. ...
