2.14

Visual Information

In many subjects, it is essential to support your writing with statistical data. Visual devices such as graphs and tables are a convenient way of displaying large quantities of information in a form that is easy to understand. This unit explains and practises the language connected with these devices.

1 Types of visuals

Below are examples of some of the main types of visuals used in academic texts.

Complete the table below to show the main use (a-f) and the example (A-F) of each type.

Uses:

(a) location

(d) structure

(b) comparison

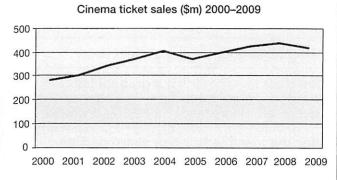

(e) changes in time

(c) proportion

(f) statistical display

Types	Uses	Example
1 Diagram		
2 Table		
3 Мар		
4 Pie chart		
5 Bar chart		
6 Line graph		

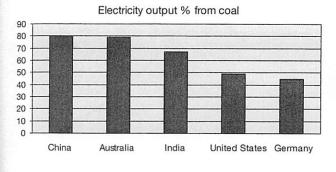

(A) Cinema ticket sales

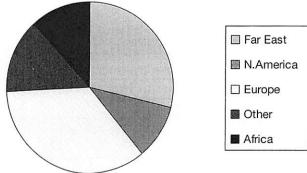

(B) Average life expectancy (in years)

Japan	81.6
France	79.0
United States	77.1
South Korea	75.5
Ghana	57.9
South Africa	47.7
Kenya	44.6
Zimbabwe	33.1

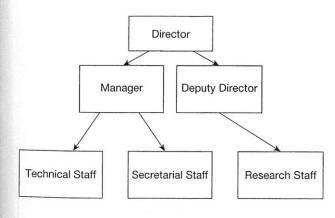

(C) Electricity output from coal

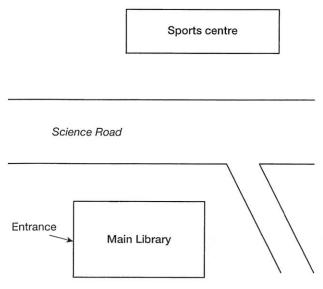

(D) Origins of international students

(E) Organisation of the research unit

(F) Position of the main library

2 The language of change (past tenses in brackets)

Verb	Adverb	Verb	Adjective + noun	
grow (grew)	slightly	drop (dropped)	a slight drop	
rise (rose)	gradually	fall (fell)	a gradual fall	
increase (increased)	steadily decrease (decreased) a steady decrease			
climb (climbed)	limbed) sharply decline (declined) a sharp decline			
also: a peak, to peak, a plateau, to level off, a trough				

Study the graph below and complete the description with phrases from the table above.

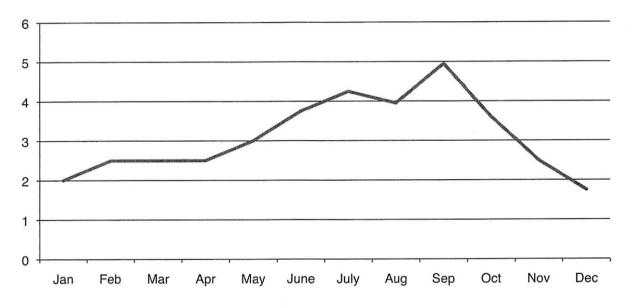

Figure 1 Inflation January-December

The graph shows that the rate of inflation was 2 per cent in January, and then			
(a) to 2.5 per cent in February. After that it (b)			
until April, and then (c)	(d)	to over 4 per cent in	
July. Inflation fell (e)	in August, but (f) _	to a	
(g) of 5 per cent in	September. Subsequ	ently, it (h)	
(i) to below 2 per c	ent in December.		

3 Describing visuals

Although visuals do largely speak for themselves, it is common to help the reader interpret them by briefly commenting on their main features.

The graph	shows	the changes in the price of oil since 1990.
map	illustrates	the main sources of copper in Africa.
diagram	displays	the organisation of both companies.
map	illustrates	the main sources of copper in Africa.

(A) Read the following descriptions of the chart below. Which is better, and why?

- (i) The chart (Figure 2) shows the quantity of tea consumed by the world's leading tea consuming nations. India and China together consume more than half the world's tea production, with India alone consuming about one third. Other significant tea consumers are Turkey, Russia and Britain. 'Others' includes the United States, Iran and Egypt.
- (ii) The chart (Figure 2) shows that 31 per cent of the world's tea is consumed by India, 23 per cent by China, and 8 per cent by Turkey. The fourth largest consumers are Russia, Japan and Britain, with 7 per cent each, while Pakistan consumes 5 per cent. Other countries account for the remaining 12 per cent.

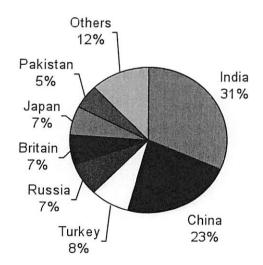

Figure 2 World tea consumption

(B) Complete the description of the chart below.

The bar chart (Figure 3) shows population (a) ______ in a variety of countries around the world. It (b) _____ the extreme contrast

(c) _____ crowded nations such as South Korea (475 people per sq. km) and much (d) ____ countries such as Canada (3 people per sq. km). Clearly, climate plays a major (e) _____ in determining population density, (f) ____ the least crowded nations

(g) _____ to have extreme climates (e.g. cold in Russia or dry in Algeria).

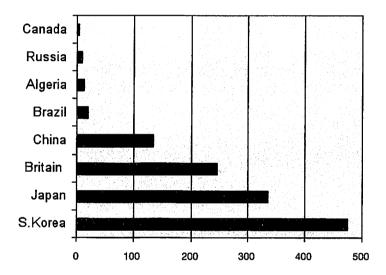

Figure 3 Population density (people per sq. km)

4 Labelling

- When referring to visual information in the text, the word 'figure' is used for almost everything (such as maps, charts and graphs) except tables (see examples above).
- Figures and tables should be numbered and given a title. Titles of tables are written above, while titles of figures are written below the data.
- As with other data, sources must be given for all visual information.
- If you are writing a lengthy work such as a dissertation, you will need to provide lists of tables and figures, showing numbers, titles and page numbers after the contents page.

5 Practice A

© Complete the following description of the table below (one word per gap).

Table 1 Projected population changes in various European countries 2010–2050 (millions)

Country	Population 2010	Projected population 2050	Change
France	62	67	+ 5
Germany	82	71	- 11
Italy	60	57	- 3
Poland	38	32	- 6
Portugal	10.7	10	- 0.7
Russia	140	116	- 24
Spain	45	51	+ 6
UK	61	72	+ 11

Source: UN

The table (a) the projected population changes in			
(b) Europea	n countries (c)	2010 and 2050. It can	
be seen that in a (d)	the populatio	n is expected to fall, in some	
cases (e.g. Germany and Russia) quite (e) However, the population			
of France, (f)	_ and the UK is predict	ted to increase, in the case of	
the last two by more (g)	10 per ce	nt.	

6 Practice B

Source: Author

M Write a paragraph commenting on the data in the table below.

Table 2 Student survey of library facilities: % students rating facilities as good

Library facilities	Undergraduates (%)	Postgraduates (%)
Opening hours	72	63
Staff helpfulness	94	81
Ease of using electronic catalogue	65	87
Availability of working space	80	76
Café area	91	95
Availability of short loan stock	43	35
Quality of main book stock	69	54
